

INNOBOOSTER PROGRAMME

The InnoBooster programme under Innovation Fund Denmark (IFD) invests in development and innovation projects in SMEs and start-ups which:

- Focus on fast and extensive scaling of their product or service
- Look for organic and gradual growth

Company Requirements

- A Danish CVR number
- Fulfil the European Commission's definition of a SME
- Secured external risk capital of min. DKK 100,000 within the past three years or
- A gross profit of min DKK 250,000 in the last published annual accounts

An InnoBooster Project Focuses on

- Developing and maturing a new product or service
- Improving a process within the company in an innovative way, significantly improving the company's competitiveness
- Projects holding greater technological risk and novelty value where the technical solution is developed

Three Investments Themes

1. Ambitious and sustainable green technology development and innovation
2. Life science, health and welfare technology
3. Strategic and challenge-driven innovation within new technologies

The Funding Covers

- Hours for new and existing employees
- Expenses for cooperation with public and private knowledge providers
- Expenses for materials, renting equipment and depreciation on new equipment

Funding Rate

- 35% of all budget costs

Duration

- Up to 2 years

"We are very happy with our collaboration with Nordic Innovators, who not only helped us prepare our funding application, but also aided and challenged our project. We can highly recommend Nordic Innovators!"

E-grant

The online registration platform to submit the proposal which contains basic information like contact details, turnover etc.

Budget

An Excel document with the budget corresponding to the proposal.

Illustrations

Max. one A4 page of illustrations that clearly showcase, demonstrate and support how the new solution works.

Video

A video should be max. two minutes long showing your team, idea and interest in the new solution.

"Time is of essence in every startup. Your path to success is defined by your speed, agility and strategy. Nordic Innovators crafted our Inno booster application and handled our case with razor sharp precision. The results lead to a successful grant and Nordic Innovators proved to have paramount importance for our progress. As a company we are more than happy to work with them again and recommend them to any startup in the early stages of product development."

Mircea Gabriel Eftemie, Co-founder & CEO Cavea.io

Inno booster process

Nordic Innovators takes the lead on the preparation and submission of a high-quality written application. Our collaborative approach to developing an Inno booster application ensures timely delivery of a strong application.
